Bronze Medalist – Philippine Math  
Vedic Olympiad (Senior Division)

# Keith Yves Robles

Computer Science Student @National University-Laguna | Aspiring  
Front-End Specialist  
Santo Tomas, Calabarzon, Philippines

## Summary

I am a dedicated and passionate second-year Computer Science student at NU Laguna, consistently recognized as a Dean's Lister for academic excellence. I am a proud UAEB Scholar and an active member of the Council of Leaders, where I contribute to various student-driven initiatives. I am also the recipient of a bronze medal in the Senior Division of the Philippine Math Vedic Olympiad, reflecting my strong analytical and problem-solving skills.

With a solid foundation in full-stack development, I have experience in languages like Java, C++, HTML, and CSS, and I am passionate about game development and app development. I also have a basic understanding of cybersecurity principles, which further enhances my technical versatility.

As an active member of the NU community, I am always eager to connect with like-minded individuals, share innovative ideas, and contribute to projects that have a positive impact. My drive is fueled by a commitment to both personal and collective growth, and I thrive in collaborative environments that challenge me to push my limits.
